

## CONFERENCE EXHIBITOR

Vermont Family Farms is a meat brand that sources 100% of its beef and pork directly from Vermont family farms. We pay our farmers at or above the market rate for their beef and pork, which helps keep the animals within the state of Vermont and provides our farmers with a convenient processing option in North Springfield, Vermont. We spare our participating farmers the hassle of dealing with larger out-of-state plants and auctions, while providing them the option of becoming part of the Vermont Family Farms brand – a brand they can take ownership in and be proud of.
